EDUCATION

Lahore University of Management Sciences - BS Computer Science - **CGPA: 3.30** ***2018-2022***

Key Courses: Software Engineering | Data Science | Computer Vision | Advanced Programming | Data Structures | Human-Computer Interaction | Machine Learning | Algorithms | Probability and Statistics

Nixor College Karachi - A Levels

Subjects: Computer Sciences, Mathematics, Physics, Chemistry

PROFESSIONAL EXPERIENCES

Educative – *Technical Content Engineer* ***2021-2022***

- Made **basic projects** and their **tutorials** for **Flutter Development**, **Python**, **Machine Learning**, etc.
- Setup Applications on **Docker CI** for multiple technologies including React, Elixir, and Flask for online execution.

ALT – *No-Code Engineer* ***2022***

- Designed different applications on Figma, Bubble, and Flutter Flow for all kinds of startups, while practicing techniques to help them grow in the best way possible.

Dawlance – *Development Intern* ***2021***

- Decreased **manual manhours** needed on the electronics operation line by **12%** by developing an end-to-end **data analysis software** and quality defects by 6.3% through production line analysis.

Afiniti – *IT Support Intern* ***2020***

- Contributed to a successful launch of a new product by conducting **product testing.** Collected **quantitative** and **qualitative** data while **stability-testing** a **portal** under development**.**

SILK Bank Emaan Islamic – *Manager Assistant* ***2019***

- Decreased **customer serving time** by **19%** after conducting **on-field surveys** and leading the adoption of best practices.

RESEARCH AND PROJECTS

Senior Year Project (Gamification for Depression): Conducted **user research** within schools in Lahore, analyzed data using **statistical techniques and developed** an interactive story-based game while utilizing iterative **design thinking**.

Topics in Human-Computer Interaction (Gamification for Dementia): Collaborated with a **research professor** from **Sydney** on a **CHI publication** to conduct research on **gamification**, which was used to **develop** and **test** a game.

Databases (Dbite): Developed a **Flutter-based social media application** created for culinary enthusiasts.

Software Engineering (Hunehar Management System): Developed an **online portal** for Hunehar NGO schools for sponsor management, which led to a **33% increase** in sponsorships.

Computer Vision (Burglar Alarm System): Developed an **AI-based alarm system** trained to track human movement.

Advanced Programming (Shopping Cart System): A CLI POS system for stock updates and checkout.

Probability & Statistics (Socioeconomic factors on Life Expectancy): – Used statistical techniques in **RStudio** for hypothesis testing to analyze worldwide trends and generated insightful analysis via visualizations.

LEADERSHIP AND EXTRACURRICULARS

SPADES (Science Society) – *Convenor Google Startup Weekend* ***2019***

- Led **Google** Startup Weekend in **NIC LUMS,** and acted as a liaison between **marketing, operations, design**, etc. Increased **sign-ups** by **21%** through hosting mentors such as **Badar Khushnood, Pir Saad, and Umer Saif.**

DanceLUMS (Science Society) – *Design Director* ***2021***

- Increased **new members' signups (62% increase)** by creatively **branding** the society, launching a new **logo**, and filming and editing dance videos.

HONOURS AND AWARDS

- Placed on the **Dean's Honor List** for semester 4, and 5 ***2020***
- **Bronze Medal** at **LUMS Sportsfest**, Boys' Basketball ***2020***
- **Double Psifi Star –** Psifi ***2019***

SKILLS AND INTERESTS

Skills: Flutter Development, ReactJS, Firebase, GitHub, UI Design (Figma), UX Research, CSS, SQL, C++, Python, Java, Google IT Support Certification, Adobe Suite

Interests: Tech Startups, UI/UX Design, Data, Video Games, Sports, Cooking
